

## DUKE DRIVING SCHOOL, LLC

Letter of Recommendation

July 10th, 2016

As a student, I felt Mr. Duke's class very well prepared me for most all I'd have to face on the road.

Of course Mr. Duke taught us the laws and regulations of the road, but he knows how to make a very powerful point. In Class A, Mr. Duke begins by showing a slide-show of well known people, whether they were celebrities, scientists, political leaders, etc. At the end of this presentation Mr. Duke reveals to us that all of the people shown had died in a car crash—every one of them.

Mr. Duke is an enjoyable teacher because he easily obtained the respect of all his students (unlike many teachers I've had in school). Because of this, when he expresses concern or gives instruction, students in his class are more apt to listen.

Mr. Duke tells us as it is, which better prepares us for the life of driving we will have.

I was impressed with his class, as a student of course, but I also appreciated the lessons taught and the thoroughness of his course.

Sincerely,

Leandra Duerst
